

## Installation guide

# Absorpole

 **CONTAINS CALCIUM CHLORIDE**

Causes eye irritation

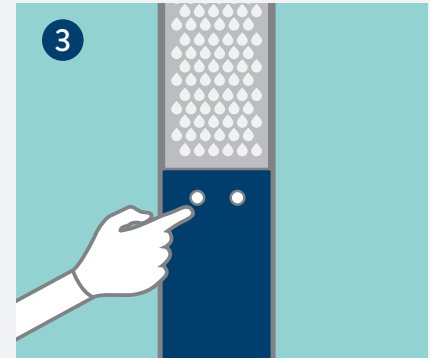

**If in eyes:** Rinse cautiously with water for several minutes. If eye irritation persists: Get medical attention immediately.

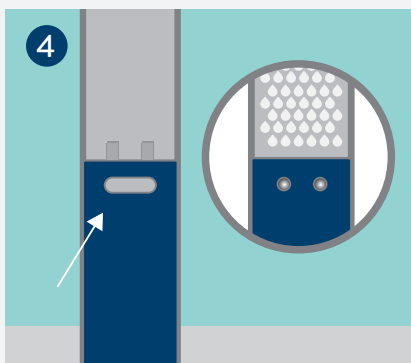

1 Pull out the inner gray container about 50 millimeters. Then twist off the double pin.

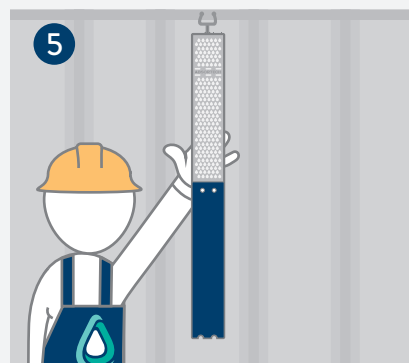

2 Continue pulling out the inner gray container, which activates the Absorpole.

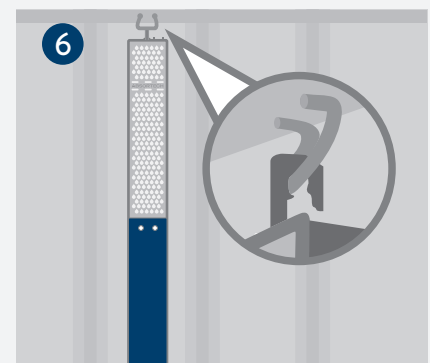

3 Match the two holes of the gray and blue parts.

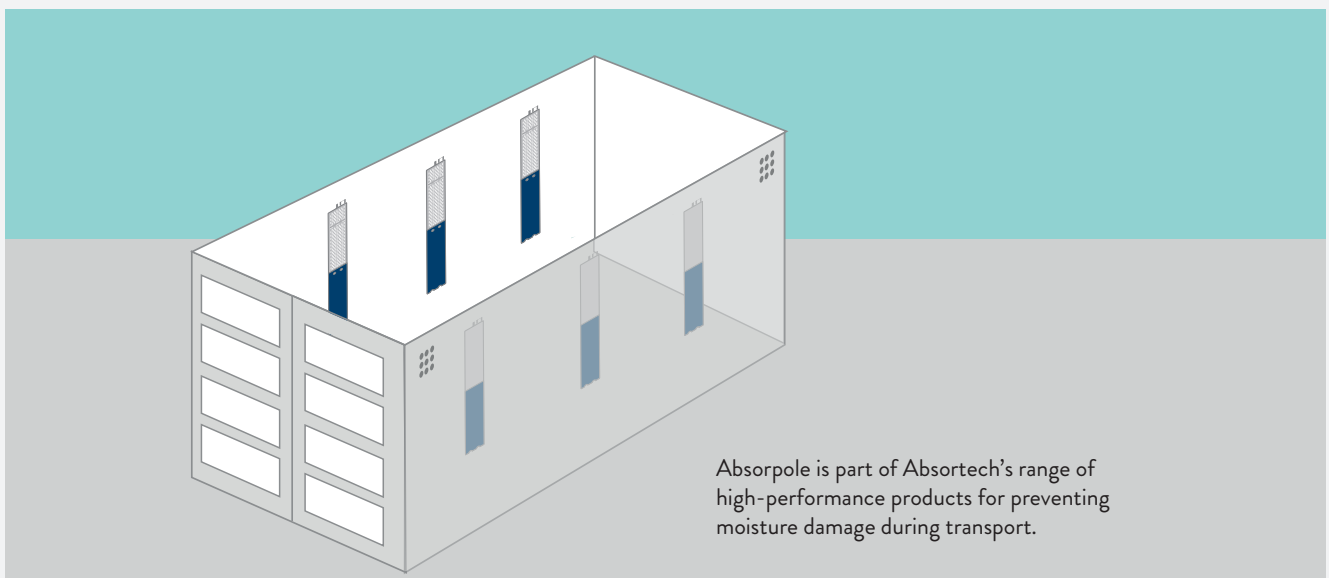

4 Insert the double pin through the two holes from the back. Push the double pin all the way through until it clicks.

5 Hang the Absorpole on the container lashing ring.

6 Press hook downwards until it clicks into position.

Absorpole is part of Absortech's range of high-performance products for preventing moisture damage during transport.
